DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Line 3 of claim 4, after "an image from the", delete -- laser scanner --, and enter -- image source --.

The correction is to alleviate insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 1, 2 and 4-20 are allowed.

The following is an examiner's statement of reasons for allowance: applicant's arguments, filed on 9-6-05, are deemed persuasive and furthermore, the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 11 and 18.

Specifically regarding claims 1, 11 and 18, Taniguchi et al. (5162928) teaches the state of the art of a head-up display.

But, Taniguchi et al. fails to explicitly teach a combination of all the claimed features including the means for diffusing light including a lens for passing the image through the lens and providing optical gain for the image and the holographic element magnifies the generated image from the means for diffusing light, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
